Our Results & Findings

Work Order: This is your Quarterly Inspection.

Notes/ Findings: When the Irrigation techs arrived onsite for your wet check, they noticed the Clock was on the "OFF" position. They turned it on, so they were able to see if it was damaged at all or not. Your Clock and Pump are functioning properly. In the front of the house, they noticed you do have 4 Broken 4" Spray Heads, 4 Nozzles, and a 1" Inch Valve. They cleaned and Adjusted the Spray Heads and Rotors. Other than that, everything is functioning. They left the clock on "OFF" position, just as we have found it when they first arrived. Below is the Estimated price for repairs, once "*Approved*", they will be back out to complete it. Please let me know how you would like to proceed. 😊

Breakdown of Repairs for Approved Request.

1x 1" Inch Valve

4x 4" Spray Head

4x Spray Nozzles
