Our Results & Findings

Work Order: This is your Quarterly Inspection.

Notes/ Findings: The technicians were onsite to complete the Wet Check. They found your Clock on the "OFF" position. They turned it "ON", so they were able to complete the Wet Check, to check for leaks or damages. They are still not able to read your "clock", for the watering days. Your Clock and Index Valve are both Functioning properly. They Cleaned and adjusted your Sprinklers. They have left your Clock on the "AUTO" Position, so the grass does not dry out or start to have brown areas. 😊

THE MONTH OF AUGUST: Working outdoors in Florida's August heat requires careful planning to ensure worker's safety and well-being. The hot and humid weather, while challenging, also promotes rapid plant growth, leading to a continuous need for mowing, trimming, and other maintenance services.
