Our Results & Findings

Work Order: This is your Quarterly Inspection.

Notes/ Findings: When the Irrigation techs arrived onsite, they noticed the Clock was on the "OFF" position. They turned it on, so they were able to see if it was damaged at all or not. Your Clock and Pump are functioning properly. They cleaned and Adjusted the Spray Heads and Rotors. Other than that, everything is functioning. They left the clock on "AUTO" position, so the grass does not dry out or start to have brown areas. 😊

THE MONTH OF AUGUST: Working outdoors in Florida's August heat requires careful planning to ensure worker's safety and well-being. The hot and humid weather, while challenging, also promotes rapid plant growth, leading to a continuous need for mowing, trimming, and other maintenance services.
